FROM :

SUBJECT : SAFE Upgrade Report for SSCI

1. Action Requested: You sign the attached letter to
Bill Miller forwarding the GDIP program manager's response to the
committee's request for a brief report on the use of the SAFE up-
grade by GDIP agencies.

25X1

2. Background: The attached report was received on 1 November
under cover of a transmittal memorandum

25X1

It's apparent from
reading it that nothing has been done specifically to respond to
the committee's direction. However, in view of the volatility of
the SAFE issue and since the committee's direction was addressed
to the GDIP program manager, Dave recommends we not get involved.
Dave has talked to the SAFE Project Officer who has no problem with
it.

3. Recommendation: That you pass the report to Bill Miller
without comment, and we leave it up to the committee to raise ob-
jections if it chooses.
